Re: Broad Agency Announcement (BAA) HSCG32-10-R-R00019 - Deepwater Horizon Response

Dear Commander Meservey:

On behalf of the citizens of the 3rd and 4th Congressional Districts of Colorado, we would like to express support for American Cleaning Technologies' "Terra Firma Cleaner" application for Broad Agency Announcement HSCG32-10-R-R00019 - Deepwater Horizon Response.

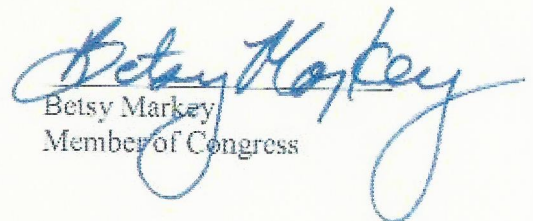

Their product, "Terra Firma Cleaner", is a proven methodology for soil remediation and is produced in both of our congressional districts. "Terra Firma Cleaner" is an widely used industrial bioremediation technology for removing oil from contaminated soil through a biological process. American Cleaning Technologies is an important employer in Colorado and I would greatly appreciate that your consideration and evaluation of their application.

It is our belief that American Cleaning Technologies people and products can fill your agency's needs. We are supportive of this grant application which will advance the remediation of critical habitat and soils.

Thank you for assistance with this process.

Sincerely,

John Salazar
Member of Congress

Betsy Markay
Member of Congress
